

CAD (Computer Aided Design) *Model CES 7039*

Students use AutoSketch software to complete the design of a home and furnishings. They learn to use the icons and tool bars in practice exercises, then apply the knowledge to their design.

MATERIALS INCLUDES:

Software, curriculum, audio tape. Computer not included.

CURRICULUM

Curriculum manual is provided in a three-ring binder, with pages contained in page protectors. Easy to follow step by step activities are highlighted using full color photographs. Once introduced to career related information (job description, education and training requirements, job prospects, and income ranges) the student begins a "hands-on" work experience, using professional tools of the trade to complete projects or tasks. An audio tape follows the manual word-for-word. Pre and post tests, worksheets, answer sheets, and instructors guide.

HANDS ON ACTIVITIES

- Identify drafting tools
- Operate drafting machine
- Mount and square paper
- Prepare title block
- Use vertical and horizontal scale
Adjust protractor dial/arm
- Dimension drawing
