OVERVIEW

Network+ is an international industry credential that validates the knowledge of networking professionals with 18-24 months of experience in the IT industry. It is an additional professional growth opportunity after A+ certification. The industry-wide mandate for more certified technicians has led high schools and community colleges to develop courses and career path curriculum leading to Network+ certification...

This program is to be used in conjunction with the CES A+ Certification Computer Repair Program.

CES Industries, Inc. is proud to be a Cornerstone Sponsor of the CompTIA Network+ Certification Program, whose curriculum has been reviewed by CompTIA and is recognized as a CompTIA Authorized Quality Curriculum (CAQC), and has also met the necessary qualifications to be recognized by CompTIA as an Authorized Training Provider in good standing.

CES Industries, Inc. offers a Network+ Program for a complete classroom with curriculum and hardware to single user stations. CES Industries, Inc. is also a *Computing Technology Industry Association* (CompTIA) Training Provider and has certified that all of the Network+ certified curriculum materials meet the current CompTIA Network+ Certification requirements.

"The Network+ Certification is an industry wide, vendor neutral program developed and sponsored by CompTIA (the Computing Technology Industry Association)." The Network+ certified professional logo is a registered trademark of CompTIA. (All rights reserved)
